MODEKA
WE RIDE

DESIGNED IN GERMANY

Here we think, design and create.
Within the family, with our strong team, in
trust and with the highest levels of creativity.

Modeka Headquarter, Beckum (Westfalen)

1946 ORIGINS

The Beckumer Leder-Bekleidungswerk was founded by August Oberkönig. Here, in its own production facility, protective garments and leather fashion clothing was being manufactured and sold.

we ride 76 years

setting new goals ever since

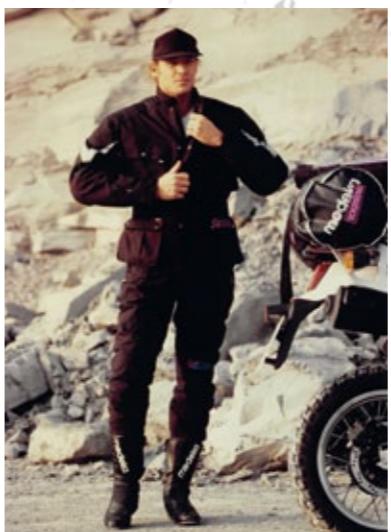

1970 BELMO

Under this name motorcycle suits were produced for the first time. The chic leather suits let Belmo's stylish, German made leather suits became popular amongst riders quickly.

1985 MODEKA

When the company focused more and more on the motorcycle market, the label Modeka was born. In the 90s, the advantages of textile clothing were coming more and more apparent. Leather motorcycle clothing was still key, but riders became more open minded to wearing something new.

2015 MODEKA OnTour

The Modeka community grows. The Beckumer Leder-Bekleidungswerk becomes Modeka International GmbH. Countless Modeka fans put Modeka products in the spotlight worldwide. Adventure garments for month-long tours through different climatic zones are more and more in demand. The adventure collection of Modeka broadens.

TODAY

Modeka offers a wide range of motorcycle clothing. The urban migration creates new needs. In addition to adventure & sportswear Modeka also offers a wide range of urban motorcycle clothing. The sophisticated collection for women's clothing also becomes a major unique selling point of the brand.

Modeka remains a family-run business.

PANAMERICANA II *x DREAM CATCHER'S* **JOURNEY**

We had an idea.
It turned into a suit.
An award-winning all-rounder
for true globetrotters.
Our trademark
for technical know-how & comfort.
Then we had another idea
and dreamlike support.
And have developed an
even better suit.

PANAMERICANA II FEATURES

The main material 750 D Tactel® is a highly abrasion-resistant polyamide fabric, which not only has a high protective function, but is also particularly supple. This material is extremely comfortable to wear.

Cordura® 1000 D is placed at the crash zones. Especially there one needs an extremely strong fabric. This Cordura® material can be recognized by its ripstop structure. Due to its structure, the material is incredibly abrasion-resistant and strong.

SAS-TEC® Level 2 protectors are integrated on back, shoulders, elbows and knees. SAS-TEC® is a German partner-business of ours and we have been working with them for decades. Protectors are divided into Level 1 and Level 2. With the latter, the energy that is transferred to the body in an impact is smaller than with level 1 protectors - thus level 2 protectors protect better. Since we have made the experience that most motorcyclists do not like to wear hip-protectors that are too stiff, there are ultra-flat, flexible SAS-TEC® protectors of level 1 in the Panamericana II pants.

Fidlock® magnets enable flawless operation of the AirDraft ventilation flaps. This type of ventilation is not only particularly popular because of its high functionality, but is also perfect for changeable weather due to its easy handling. The AirDraft flaps are integrated on the chest and thighs.

AirVents are ventilation zippers that can be found on the sleeves, on the back, on the back thigh and at the end of the trouser legs. Robust YKK® zippers are used here. The long AirVents are 2-way, so that an individual ventilation can be adjusted.

The Panamericana II is dry and windproof thanks to the Sympatex® membrane. With a water column of 45,000 mm, it is not only 100% waterproof, but also particularly breathable. Perfect for long distances.

The included quilted midlayer jacket keeps you warm. It fits perfectly the Panamericana II jacket, but can also be worn casually on its own.

PROTECTION

- CE class AA (EN 17092-3:2020)
- 750 D Tactel® (100 % polyamide)
- 1000 D Cordura® on crash zones (100 % polyamide)
- DuPont™ KEVLAR® fabric on calves as heat protection
- SAS-TEC® back protector / level 2 (CE EN 1621-2:2014)
- SAS-TEC® protectors on shoulder, elbow, knee / level 2 (CE EN 1621-1:2012)
- SAS-TEC® hip protector / level 1 (CE EN 1621-1:2012)
- upgradable with chest protectors SAS-TEC® SC-1/CP-2

WEATHER

- AirDraft: 2 ventilation pocket in jacket and pants
- AirVent: ventilation zips
- AirCollar: fold-away collar
- detachable Sympatex® membrane (45.000 mm water column)
- Dry & Airy: membrane jacket can be worn alone in the back
- detachable Midlayer jacket
- detachable thermo lining in pants

FEATURE

- emergency / ID pocket on left forearm
- innovative stretch cuff
- detachable braces

AWARD

„The combination of extremely supple tactels with sufficiently dimensioned, abrasion-resistant Cordura zones makes the Panamericana a real feel-good suit. Thanks to the magnetic solution for the ventilation flaps, the changeover to changing climate zones works quickly and effectively. [...] Overall, the air exchange in convertible mode works very well.“ TOURENFAHRER 7/2022 - EMPFEHLUNG

AWARD

„Very elegant and functional 3in1 allseason suit for a great price.“ Motorrad & Reisen SEHR GUT (93/2019)

„The textile motorcycle suit from Modeka has a casual cut and offers enough room for female curves on the bottom, hips and thighs. Additional stretch inserts in the crotch ensure optimum freedom of movement. The very good solutions for width adjustment make sure that the protectors on elbows and knees are exactly where they should be.“ Tourenfahrer (8/2019)

WEATHER

- AirFlow: Cordura® AFT panels for an effective ventilation
- AirCollar: fold-away collar
- detachable Sympatex® membrane (45.000 mm water column)
- Dry & Airy: membrane jacket can be worn alone in the back
- detachable Midlayer jacket
- detachable thermo lining in pants

FEATURE

- emergency / ID pocket on left forearm
- innovative stretch cuff
- lateral textile stretches
- detachable braces

AWARD

„After 2 months in the test, the AFT AIR suit from Modeka could already convince all along the line as a great all-rounder. Depending on the configuration with or without inner lining, it offers a lot of comfort and can be adapted well to one's own body thanks to its adjustment options.“ 1000 PS (19.04.2021)

„Great safety features, good fit and maximum mobility are what set the AFT Air apart. It has mesh areas instead of ventilation zips, the climate is regulated with the choice of inner jackets.“ Mototorrad Urteil: SEHR GUT & KAUFTIPP (04/2022)

- SuperFabric® reinforcements
- SAS-TEC® knuckle protector

WEATHER

- Sympatex® membrane (45.000 mm water column)
- visor wiper

AWARD

“The Panamericana convinces with its pleasing leather-textile mix and functional protector equipment. Fit and thermal performance are optimal, combined with the sensible, climate-regulating Sympatex membrane a great glove at an awesome price.” Dream Machines (03/2021)

„A great glove with excellent value for money. During a three-day trip with heavy downpours, the glove stays waterproof and the fingers stay pleasantly dry.“ Motorrad & Reisen SEHR GUT (88/2019)

„Immaculate manufacturing and workmanship with high safety features, super reinforcements, high quality haptics - and all of that for a fair price.“ MO (65/2018)

- included: rain cover
- 3D mesh padding at the back
- padded laptop case (up to 17 inches)
- many compartments inside and outside
- height-adjustable chest strap
- hip strap with zipped compartments
- prepared for hydration system

AWARD

"The back pack Adventure Pack by Modeka accompanied us on quite a few rides recently and amongst other things, we stored our laptop and camera in it, knowing that - thanks to its stable back and the robust, anti-slip floor, as well as its fairly abrasive resistant 600D polyester outer material - they will be safe and sound." Motorrad (16/2020)

Backpack 111012 30 x 52 x 20 cm
